Pukekawa Students are **THINKING** Students

This means.....

We need to "GET FIT" at THINKING
by practising- having opportunities
and encouragement to THINK

- We think about our learning
- We reflect on our learning
- We can talk about our learning
- We know what to do next
- We are creative
- We relate new knowledge to what we already know
- We make sense of information, experiences, ideas
- We are curious
- We ask questions
- We challenge ideas
- We make decisions about our learning
- We can be independent with our learning
