

PUKEKAWA SCHOOL- School Copy

Re: OPTIONAL Bring Your Own Electronic Devices to School 2020

Parents / Caregivers of

I / We agree with the following clauses and have discussed these with our child.

1. This is optional. The school still has computers for students to use, so no students will be disadvantaged. Of course, having more devices will eliminate the need to share devices- wait time.
2. We have a lockable cabinet for devices. Students will be instructed to put their device away after each learning session.
3. Students will use their own device- the device will not be used by other students.
4. Students will take their devices home each night. Therefore, a carry case to protect the device will be required. Devices are not to be used on the bus.
5. Students are responsible for charging their devices.
6. The devices will need to be covered by your home contents insurance for loss or damage. The school will not be liable for replacing or repairing computer devices.
7. Computers brought from home will need to be free of any inappropriate material.
